Dear Sir:

The Russian coin which you sent us on February 2nd is enclosed. Coins of this type were issued between the years 1810 and 1825, and the date of yours must be during that period. Of course, the exact year it is impossible to determine because of the injury to the coin.

I will be glad to answer any future inquiries.

Very truly yours,

Assistant to Curator.

Mr. Wyman,

Dear Sir,

Enclosed you will find a Chinese
piece of money I have a chance to buy it
Please let me know what I ought to
pay for it as I am not familiar with
Chinese money. I also would like to know
If you have looked up South American
money if so send 3 or 4 and I will
send the price ask for them.

Remember me to Mr. Wood.

I remain your Friend

Max Herzfeld.

P. S. Send me an answer soon.

My dear Max:-

I am returning the Chinese dollar. This piece is only worth its worth in silver, and I do not advise you to buy it as it is in very poor condition, and for a few cents more you will be able sometime to get a finer one since these pieces are not at all uncommon.

Very truly yours,

Assistant to Curator.

Mr. Wood,

I have not been to the Museum for some time
and perhaps you have forgotten me. I would like to
know if an 1891 American dime, with liberty sitting
down, mint mark "S". Because I once had a Catalogue
and I think I saw it said something of a premium on
it. And I would like to know if you would kindly
get me some coins from S. America. I got a 3^d piece
from U.S. 1865. and now have a one-two + three + five
cent pieces of U.S.

I'll probably be out to the Museum in a few weeks.

Truly yours
Max Herzfeld.

Dear Mr. Herzfeld:

The United States dime of the San Francisco
mint that is very rare is 1894 and not 1891.

Some time when you are round this way, I will
see what we have in South American coins.

I am glad to know that you are still collecting.

Very truly yours,

Curator

But can't read the mint. Will you please
inspect the inclosed coin and let me know
what the value is.

I will be very much obliged.
